

### CCC Bid Farewell to Cambodia

It is always a bitter sweet moment for Coral Cay when it comes to the end of our time in a country. On the one hand it signifies the successful completion of everything that we strived to achieve during our time on site, but on the other it is just always sad to say goodbye.

It was an enjoyable and fruitful 4 years on the beautiful island of Koh Rong. CCC staff and volunteers contributed the data from a total of 249 surveys to help with the planning of the future Marine Fisheries Management Area (MFMA). This is the most comprehensive information on the coral reef habitats found in the Koh Rong Archipelago to date! With CCC's help in training local scholars and Fisheries Administration (FiA) employees we are sure it will be a great success. Our in country partners will continue the good work aided by our Field Base Manager Ben, who will be joining Song Saa on the completion of his contract with CCC.

The children of Barangay Cagbungalon practising their snorkelling skills.

#### Philippines

The team have been busy surveying a newly proposed MPA site in the Barangay Cagbungalon. After running the statistics we can report positive news, with the reefs in good health. Of course this is the first step in a long process but with the community welcoming CCC with open arms and the Municipal Agricultural Office of Liloan equally supportive there is every hope for the successful creation of another MPA in the region.

Volunteers: Kim, Keanu, Sonya and Thak getting ready for a dive.

#### Montserrat

The hard work has paid off in Montserrat with our first scholar, Keanu Barnwell, completing his science and dive training and undertaking his first marine surveys! As a part time scholar it's taken some time to get to this point but Keanu has been a credit to CCC, showing what determination can achieve. There is still plenty of room for both terrestrial and marine scholars, so if you are a Montserratian check out our [scholarship](#) page and sign up!

#### Offer of the Month!

A crossover from our umbrella company this week. On the 20th-21st September, and the 18th-19th October 2014 the [Lifesigns Group](#) will be running the:

1 day Expedition Care Program Explore course (£75 excl. VAT)

2 day Exploration Medicine course (£110. excl. VAT)

If you would like to benefit from a **20% discount** just email [ukoperations@lifesignsgroup.co.uk](mailto:ukoperations@lifesignsgroup.co.uk) and quote 'CCC'.

NB. Subject to availability. May only be redeemed for the dates mentioned above. Cannot be combined with any other offer.
