

IT WAS A PLEASURE TO MEET YOU AT DIVE 2017

Just a quick reminder of who [Coral Cay Conservation](http://www.coralcay.org) (CCC) are and what we do. Taking part in a CCC project is an amazing opportunity to dive some of the most spectacular reefs in the world all whilst doing your bit to help conserve them. By joining us on our Philippines site you will be able to improve your diving skills in one of the most bio-diverse locations in the world, and become adept at identifying corals, fish and a host of other marine creatures. Grab the opportunity to make friends that will last a lifetime, and play an active role in tackling the global biodiversity crisis.

CCC have been in the Philippines for nearly 20-years and at our current site in Napantao since 2008. Our house reef, based about 20 meters from where you will stay, is one of the best dive sites in the Philippines. This is your chance to help protect this vibrant ecosystem. It's time to give back to the ocean!

The role that you will play within CCC is a vital step in the creation of protected areas. You will

help to improve the livelihoods of local communities whilst developing a new perspective of the natural world.

"An unforgettable and rewarding experience where I had the opportunity to meet amazing people and enjoy diving in some of the most beautiful places while feeling to be a part of something important."

Laura, 2017 Volunteer.
